Werner Offers a Full Line of Attic Ladders

How To Select Attic Ladders In Three Easy Steps

1 Select the location and determine the size you need. (see diagram on Swing Clearance)

Before Proceeding: Pick a potential location for installation. You must have a level & flat ceiling location with suitable joist structure.

A: Determine floor to ceiling height at potential location and desired width. FC (see FC in Swing Clearance photo)

B: Determine the swing clearance available. SC (see SC in Swing Clearance photo)

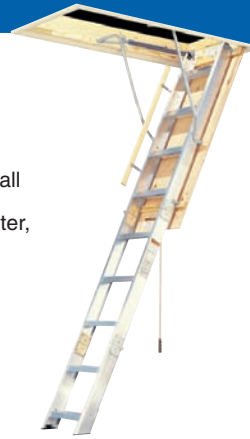

C: Determine the landing space available to let both legs rest flat on floor. LS (see LS in Swing Clearance photo)

D: Match up ceiling height, swing clearance and landing space to appropriate ladder.

"A" Series Aluminum

Load Capacity
300lbs.

- Lightweight, easy to open, close and install
- Attractive - high quality door will not splinter, decay or rust
- Grooved, slip-resistant steps
- Unique design adds toe clearance for comfortable climbing
- Adjustable feet for easy installation and correct fit

| Model | Approx. Ladder Width | Range of Openings | Floor to Ceiling Height Range | |
|-------|----------------------|-------------------|-------------------------------|--------|
| A2208 | 14 1/2" | 22 1/2" x 54" | 7' | 8' 9" |
| A2210 | 14 5/8" | 22 1/2" x 54" | 8' 9" | 10' 4" |
| A2508 | 17 5/8" | 25 1/2" x 54" | 7' | 8' 9" |
| A2510 | 17 5/8" | 25 1/2" x 54" | 8' 9" | 10' 4" |
| A2512 | 17 5/8" | 25 1/2" x 64" | 10' 5" | 12' |

Aluminum AccessLadder

- Counter balance mechanism eliminates sag and springiness
- Metal to metal hinge maintains ladder rigidity
- Adjustable feet for easy installation and correct fit

"W" Series Wood

Load Capacity
250lbs.

- Easy to open and close
- Fully assembled and ready to install
- Full wrap-around door hinge minimizes heat loss
- Smooth quality plywood door - ready for painting or staining

| Model | Approx. Ladder Width | Range of Openings | Floor to Ceiling Height Range | |
|-------|----------------------|-------------------|-------------------------------|--------|
| W2208 | 14 1/2" | 22 1/2" x 54" | 7' | 8' 9" |
| W2210 | 14 1/2" | 22 1/2" x 54" | 8' 9" | 10' 4" |
| W2508 | 17 1/2" | 25 1/2" x 54" | 7' | 8' 9" |
| W2510 | 17 1/2" | 25 1/2" x 54" | 8' 9" | 10' 4" |

"WH" Series Wood

Load Capacity
350lbs.

- Easy to open and close
- Fully assembled and ready to install
- Full wrap-around door hinge minimizes heat loss
- Smooth quality plywood door - ready for painting or staining

| Model | Approx. Ladder Width | Range of Openings | Floor to Ceiling Height Range | |
|--------|----------------------|-------------------|-------------------------------|--------|
| WH2208 | 14 1/2" | 22 1/2" x 54" | 7' | 8' 9" |
| WH2210 | 14 1/2" | 22 1/2" x 54" | 8' 9" | 10' |
| WH2508 | 17 1/2" | 25 1/2" x 54" | 7' | 8' 9" |
| WH2510 | 17 1/2" | 25 1/2" x 54" | 8' 9" | 10' |
| WH3008 | 22" | 30" x 54" | 7' | 8' 9" |
| WH3010 | 22" | 30" x 54" | 8' 9" | 10' 4" |

2 Match your measurements to correct product.

3 Choose the material you prefer - lightweight aluminum or economical wood.

Aluminum Attic Ladders
